

COMPOSITE PRESSURE TANKS

RESIDENTIAL / COMMERCIAL COMPOSITE FIBERGLASS / POLYETHYLENE

Features:

- Inner shell constructed of high molecular weight polyethylene
- Wound with continuous fiberglass to provide superior strength under pressure
- Resists corrosion and provides years of reliable service
- Lightweight tank design makes installation fast and easy
- 150 psi maximum operating pressure
- 120°F maximum operating temperature
- NSF/ANSI certified to Standard 44
- Available in almond, blue, black, gray, or natural
- Private labeling available

Warranty:

These pressure vessels are warranted to be free of manufacturing and material defects for a period of 10 years if operated within specifications in residential (up to 13" diameter) water treatment applications. Commercial and industrial sizes (above 13" diameters) are warranted for a period of 5 years. Warranty coverage excludes freezing, vacuum, corrosive materials exposure.
